Leading SAFe® 4.5 Scaled Agilist Certification (SA) (2 Day)

Attendees can develop a skillset that's in demand worldwide—and empower their enterprises to succeed in a disruptive marketplace—when they become a SAFe® Agilist (SA). During this two-day course, they'll learn the principles and practices of the Scaled Agile Framework® (SAFe®), how to execute and release value through Agile Release Trains, and what it means to lead a Lean-Agile transformation at enterprise scale.

Attendees will gain an understanding of the Lean-Agile mindset and why it's so effective in today's adapt-or-die marketplace. They'll also get practical advice on supporting Agile teams and programs, empowering a Lean Portfolio, building a continuous delivery pipeline and DevOps culture, and coordinating large solutions.

Topics Covered

- Introducing the Scaled Agile Framework (SAFe)
- Embracing a Lean-Agile Mindset
- Understanding SAFe® Principles
- Experiencing Program Increment (PI) Planning
- Exploring, Executing, and Releasing Value
- Leading the Lean-Agile Enterprise
- Empowering a Lean Portfolio
- Building Large Solutions

Who Should Attend

- Executives and Leaders, Managers, Directors, CIOs, and VPs
- Development, QA, and Infrastructure Management
- Program and Project Managers
- Product and Product Line Management
- Portfolio Managers, PMO, and Process Leads
- Enterprise, System, and Solution Architects
- Agile Change Agents and Teams

Preferred 5+ year experience in software development, testing, business analyst, product or project management, and experience in Scrum.

Certification Process

Attend the 2-Day Leading SAFe® course, then pass the SA Exam (First attempt included with course registration. Retakes are $50.)

Annual Renewal

Renewals are from the date of certification.
Renewal fee: $100

Learning Objectives

Through the completion of this course, you will be able to:

- Apply lean, agile and product development flow principles to improve productivity, employee engagement, time to market, and quality.
- Apply the Scaled Agile Framework based on lecture, real-world examples, and insights by Scaled Agile experts who are currently "in the trenches." This course will be organically tailored to the participants' needs while adhering to the course module.
- Understand the skills necessary for an enterprise transformation based on the information and examples presented, and additional recommended readings and resources
- Gain the insights into the leadership skill most effective in unlocking the intrinsic motivation of software development knowledge workers and begin applying them in your context.

Class Registration Includes:

- Attendee workbook
- Preparation and eligibility to take the SAFe® 4.5 Agilist exam.
- One-year membership to the SAFe® Community Platform
- Course certificate of completion
